TESTIMONIAL

Our accounting practice sought to provide a loan mortgage solution for our clients but we did not want to bring in-house the infrastructure and technical expertise necessary to provide a competent mortgage service. ACS has provided our clients with a level of professionalism and know-how which is rare in the mortgage industry. As a result, we are delighted to have joined the Partners First program. ACS has a no-nonsense approach and importantly does not pressure our clients to change loans where it does not benefit the client to do so. ACS has a small team of highly competent staff who are all salaried employees and therefore not influenced by commission rates paid by the banks. I would highly recommend their services to any professional group.
